PROFESSIONAL SUMMARY

Third-year Computer Engineering student at Azerbaijan University of Economics (UNEC) with hands-on experience in data analysis, data visualization, and AI workflow automation. Proficient in Python, SQL, Power BI, Tableau, and n8n, with practical project experience in AI-assisted prototyping and automated fraud detection. Winner of a national digital ideas competition with strong teamwork and problem-solving skills developed through hackathons and technical competitions. I am seeking internship opportunities to apply my analytical skills to real-world data problems and continue developing my expertise in data science and AI.

EDUCATION

Azerbaijan University of Economics (UNEC) — B.S. in Computer Engineering, Baku, Azerbaijan
Expected June 2028 | GPA: 3.34 | DIM Entrance score: 615/700

EXPERIENCE

Data Science Intern — QSS Analytics

Python Mentor — Data Science Academy

PROJECTS

KidCity Quest — 1st Place, National Digital Idea Competition

● Led solution architecture and MVP development for a web-based educational quest platform using AI-assisted prototyping.

AI Fraud Detector

● Built an automated n8n workflow integrating AI models to monitor transaction streams and flag anomalies in real time.

UrbanScan AI — AI-Powered Urban Monitoring

● Developed a Random Forest pipeline using satellite imagery (Azersky/Sentinel-2) to analyze land-cover changes and spatial risks in Khankendi for Azercosmos.

Superstore Sales Analysis

● Analyzed retail sales data in Python to extract seasonal trends and support data-driven business insights.

Brain Tumor Segmentation

● Trained a U-Net model in PyTorch on 3,000+ MRI scans (~0.745 Dice Score) and built a FastAPI web tool for real-time segmentation.

Enterprise RAG Knowledge Assistant

● Developed a production-ready asynchronous microservice using FastAPI, LangChain, and FAISS vector search for accurate, context-aware document querying, featuring Docker containerization and GitHub Actions CI/CD workflows.

TECHNICAL SKILLS

Programming: Python, HTML, CSS, JavaScript, Git/GitHub

Databases: Oracle SQL, My SQL

Data Analysis & BI: Power BI, Tableau, Microsoft Excel

AI & Automation: n8n Workflow Automation, Claude, Prompt Engineering, AI-Assisted Prototyping

ACHIEVEMENTS, LANGUAGES & ACTIVITIES

Achievement: 1st Place, Rəqəmsal İdeya Müsabiqəsi — Kid Safety Simulation Platform

Activities: Volunteer, Eurasian Conference on Human-Computer Interaction (HCI-E), December 2025; Digital Security Ambassador, World AzeYouth Union (August 2026- October 2026); Volunteer, RIIB

Certificates: Aptis General English Test (C1) – British Council; SQL for Data Science – UC Davis, Coursera; Fundamentals of Visualization with Tableau – UC Davis, Coursera; Data Analytics Job Simulation – Deloitte; AI Skills 4 Women – Founderz; SQL (Basic) & SQL (Intermediate) – HackerRank; Introduction to Data Science – CISCO; Machine Learning with Python – IBM; Machine Learning- DeepLearning.ai, Stanford

Languages: Azerbaijani (Native), English (Fluent), Turkish (Fluent), Russian (Intermediate)

Soft Skills: Teamwork, Problem-Solving, Critical Thinking, Project Development, Adaptability
